

Butterfly Instructions

Items you are given: two pieces of colored paper, two googly eyes, one pair of antenna, one black circle, one clothes pin, black circle stickers

Items you will need: scissors, glue (you can use a glue stick but regular glue will work better) small piece of tape

Step 1: Fold one piece of colored paper in half and along the fold line, cut out a large wing shape. When you open the paper up, you will have two identical large wings, connected in the middle. Repeat this process with the second piece of colored paper, but make the wing shape a bit smaller for the bottom wings.

Step 2: Glue the wings you just made to one side of the clothes pin.

Step 3: Tape the antenna pair to the back of the black circle, and on the other side of the black circle, glue on the two googly eyes. This forms the head of the butterfly.

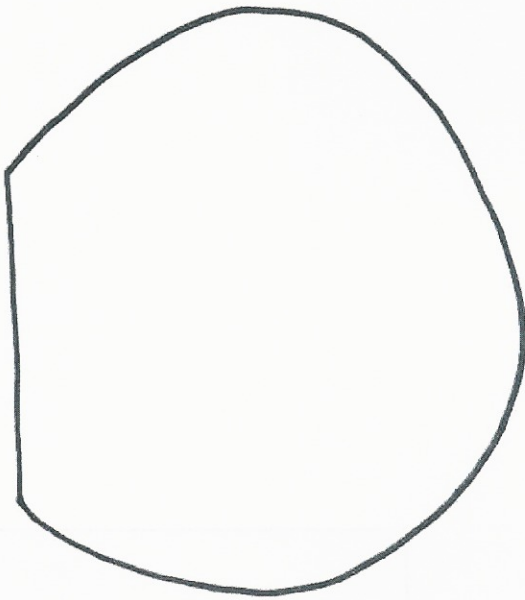

Step 4: Glue the head you just made to the top of the clothespin.

Step 5: Decorate the wings with the black circle stickers.

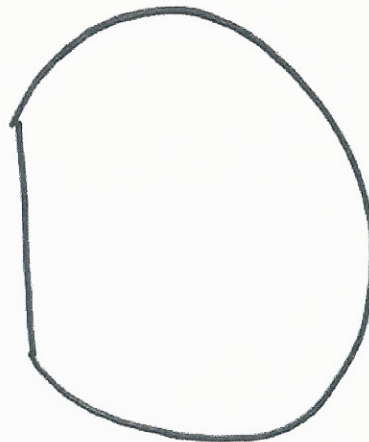

Once your creation is completely dry, you can clip it somewhere in your bedroom or around the house.

Additional help for Step 1: If you want, you can cut out the patterns below for wings and then trace them onto your colored paper (place the straight edge of the pattern alongside the folded edge of the colored paper.)

For best results: do not make the wings any smaller than the patterns below. You can even make them a bit larger.

Top Wing

Bottom Wing
